

Diaper Drive Check List

Thank you for hosting a diaper drive to support the Food Bank and the Nappie Project. This is a quick check list to walk through the process of hosting a successful diaper drive.

1. Choose a date or dates for the actual collection. Is it a one-day drive or a month-long effort?
2. Be sure to [register](#) your drive with the Food Bank so we can provide any support materials and coordinate diaper delivery.
3. Consider whether you want to add a competitive element, like challenging co-workers to see who can collect the most diapers.
4. Set a goal for your drive. Number of diapers? Pounds? Will you try to fill a room?
5. Determine your collection point(s) and whether you will need containers. With enough notice, the Food Bank can provide collection boxes or containers.
6. Spread the word about diaper need with your potential donors. We accept all sizes of diapers, but sizes 4, 5 and 6 are of greatest need.
7. Once your drive is completed, be sure to count the number of diapers you collected and share with your supporters.
8. Last but not least, work with the Food Bank to drop off your diapers. You can do this when you complete your [diaper drive application](#).

Thank you again for helping solve diaper need in our community. Please contact [Nancy Tafoya](#) with any questions.
